Final Exam
Debate Preparations

For the final exam, we will be conducting a debate on six hot-button topics in the field of genetics. You will be paired up and asked to research a topic before you are told whether or not you are defending or refuting the position.

Please rank your top 3 picks for a topic.

- _____ genetically modified foods
- _____ genetically engineering microbes for bioremediation
- _____ cloning whole organisms
- _____ embryonic stem cell research
- _____ gene therapy
- _____ prenatal genetic testing/manipulations

Please list your top 3 picks for a debate partner.
